

Vacancy: **2074: Lecturer / Senior Lecturer / Associate Professor / Professor (Human Anatomy)**

Faculty: **Health Sciences**

Department: **Basic Medical Sciences**

Division:

Type: **Academic**

Description: **Faculty Health Sciences
Department Basic Medical Sciences
Lecturer / Senior Lecturer / Associate Professor / Professor (Human Anatomy)
Job ID: 2074**

Duties and responsibilities:

Present lectures, tutorials, small group discussions and dissection training in Human Anatomy for undergraduate students in the Faculty of Health Sciences.

Facilitate small group discussions and practical / dissection sessions for undergraduate and postgraduate students in the Faculty of Health Sciences.

May be involved in curriculum development and module management in modules presented to undergraduate and post graduate students in health professions.

Be involved in the departmental research programme.

Active participation in research and postgraduate supervision.

Inherent requirements:

Lecturer:

Master's degree in Human Anatomy.

Proven experience in the delivery of poster or oral presentations at conferences or equivalent activities.

Provide evidence of manuscripts produced that have the potential to be converted or submitted for publication, ideally in an accredited journal.

A good academic record.

Senior Lecturer:

PhD in any field related to Human Anatomy.

At least five years' experience of teaching Human Anatomy at undergraduate and postgraduate level, preferably with responsibility for curriculum development and assessment.

Proven experience in the supervision of graduated master's degree and PhD students.

Proven experience in delivering oral and/or poster presentations at national and international conferences.

Proven research record of relevant publications in the field of Human Anatomy in national and international accredited journals.

Proven experience in the presentation of papers/posters at national scholarly conferences.

Proven national recognition for specialist expertise and research in a specific area of scholarship.

An NRF rating or demonstrable potential for obtaining an NRF rating.

A proven research record of relevant publications in national and international accredited journals.

Proven experience of service as an active member of a national or international scholarly society or committee or agency concerned with research at higher education levels.

Associate Professor:

PhD in any field related to Human Anatomy.

Experience as external examiner for postgraduate students.

Editorial board member of high-quality national scholarly journals.

Proven national recognition for specialist expertise and research leadership and academic scholarship in the specific scientific area of scholarship.

A NRF rating of C3 or equivalent status.

Proven experience in the supervision of graduated Master's degree students.

Proven experience in presenting oral / poster presentations at national and international conferences.

Serve as a member of a national scholarly society OR a national committee or agency concerned with research at higher education levels OR show evidence of service as an active member of an international equivalent.

Professor:

PhD in any field related to Human Anatomy.

Experience as external examiner for Master's and doctoral students.

Act as editorial board member of high-quality international / ISI / IBSS journals.

Proven international recognition for specialist expertise and research leadership and academic scholarship in the field of Human Anatomy (e.g. regularly serves as a reviewer for international / ISI / IBSS journals).

A NRF rating of C1 or C2 or equivalent status.

Demonstrated successful supervision of graduated Master's and preferably graduated doctoral students.

Proven experience in presenting oral / poster presentations at national and international conferences.

Serve as a member of an international scholarly society OR an international committee or agency concerned with research at higher education levels.

Required competencies:

Good interpersonal and communication skills and the ability to function with ease in the University's richly diverse working environment.

Ability to function independently, as well as in a team environment.

Ability to organise workload and to perform under pressure.

Recommendations:

At least five (5) years' experience of teaching in Human Anatomy at undergraduate and postgraduate level, preferably with responsibility of curriculum development and assessment. Proven academic work experience in the higher education sector.

Experience in research and obtaining research funds.

Appropriate registration with the Health Professions Council of South Africa (HPCSA).

Knowledge of an additional South African language.

Valid driver's license.

Assumption of duties:

01 January 2018.

Closing date:

20 October 2017.

Salary:

The salary scale is available on request. For any further enquiries, please feel free to contact 051 401 3101 / 2849.

Fringe benefits:

(Subject to specific conditions): pension scheme, medical aid scheme, group life insurance, housing allowance, leave and sick leave, service bonus and study benefits.

General:

The University reserves the right not to fill the post. The University subscribes to and applies the principles prescribed by the Employment Equity Act. Preference will be given to candidates from the designated groups, in accordance with the principles of the aforementioned act and the employee profile of the specific department / division.

Applications may only be submitted online. All applications must be accompanied by the following:

A detailed curriculum vitae

Copies of all academic records

Copies of qualifications (please provide the SAQA accreditation in the case of foreign qualifications)

A copy of your identity document (ID)

Applications that are incomplete, or sent by fax or e-mail, will not be considered. Should you not be contacted within six weeks of the closing date for applications, you may assume that your application was unsuccessful.
